

2025-26 JABC TECHWORKS VIRTUAL PROGRAM

JA
British
Columbia

Member of
JA Canada

A unique work-readiness program that helps high school students explore tech careers and develop the skills and mindset for future jobs. Supporting BC's curriculum across Career Education, Science, and ADST, it's offered at no cost thanks to our generous supporters.

ON-DEMAND VIDEO SERIES

- 20-minute engaging videos on world-changing technology
- Includes educator guides and student activities
- Videos feature leading tech companies, highlighting careers and real-world innovations

BY REGISTERING, YOU'LL GET ACCESS TO:

- The Power of Technology – how tech shapes our world
- AI is Everywhere – the future unfolding now
- Creativity Meets Technology – innovation at work
- Panel Discussion with Tech Experts
- Plus, exclusive classroom activities to keep your students engaged and thinking critically

Virtual JABC TechWorks
highlight reel

+ 2 NEW RELEASES:

Coming Winter 2026: Healing with Technology

Discover how technology is transforming healthcare, from wearables and virtual visits to AI and biotech, helping people live longer, healthier lives while opening new career paths.

Coming Spring 2026: Tech on the move

Explore how technology is reshaping transportation—from electric cars and smart ports to drones and space travel—driving innovation on land, sea, air, and beyond.

Is the future of
healthcare
powered by
technology?

How is
technology
changing the way
we move?
